Dear Future Media Concepts,

I am a graphic artist who attended your Adobe Master Classes for Desktop Publishing. I became a graphic artist through apprenticeship, and not a formal education. Hence, there were many gaps in my graphic arts knowledge. Future Media Concepts (FMC) filled in the gaps.

FMC taught me the smartest, most efficient way to think and work graphically. I learned the correct terminologies and proper approach/methods to prepare my projects. In addition, I learned how to express myself and be understood, within the visual media community.

I have always had the latest technology available to me, now I am happy to be able to utilize it to its fullest potential. My skill level has risen, and it shows in my work. As a result, so has my demand.

Thank you FMC.
